# Conclusion

- CapitaLand's first quarter trading performance demonstrated the Group's ongoing operating resilience, as we emerged from the COVID-19 pandemic into a gradual recovery.
- The Group's balance sheet remains strong, with S\$14.8bn of cash and available undrawn facilities and a healthy net debt-to-equity ratio of 0.65 times. This will continue to support our recovery and growth.
- As part of CapitaLand's 3.0 strategy, the Group proposed a strategic restructuring to sharpen its strategic focus and unlock sustainable value for shareholders on 22 March 2021.
- Following the initial announcement, we are preparing to release a Scheme document and an Introductory document and convene Shareholders' meetings to seek shareholders' support in the second half of 2021.
- In the meantime, the proposed transaction is not expected to affect the day-to-day business activities and ongoing operations of CapitaLand and our listed REITs/BTs.
- We will continue our business as usual, and will retain our focus on our capital recycling discipline, pivoting towards new economy asset classes, growing fee income streams via Fund Management and Lodging, as well as proactively future proofing our operations to ensure their relevance post-COVID.
- Importantly, we remain committed to the goals set out in CapitaLand's 2030 Sustainability Master Plan to embed sustainability into every stage of our real estate life cycle. This will be our strategic blueprint to pursue profitable business growth in a responsible manner.

Note:

1. It is currently contemplated that CapitaLand's Shareholders will be receiving a scheme document and introductory document in or around 3Q 2021, with full information on the proposed restructuring and the details of the Extraordinary General Meeting and Scheme Meeting that we will call to seek Shareholders' approval
