Contents

- 1Q 2008 Results Overview

- Debt Markets
  - Liquidity & Financial Flexibility
  - Flight to Quality

- Economic Value Creation vs Accounting

- Capital Allocation
  - Past and Future
This presentation may contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, availability of real estate properties, competition from other companies and venues for the sale/distribution of goods and services, shifts in customer demands, customers and partners, changes in operating expenses, including employee wages, benefits and training, governmental and public policy changes and the continued availability of financing in the amounts and the terms necessary to support future business. You are cautioned not to place undue reliance on these forward looking statements, which are based on current view of management on future events.
1Q 2008 – Healthy Earnings

- PATMI of S$247.5 million vs 1Q 07’s S$608.1 million
  - 1Q07 included an unusually large fair value gain of S$427m arising from 8 Shenton Way (formerly known as Temasek Tower)

- Better operating performance from residential, retail, financial & serviced residence SBUs

- Overseas EBIT up 33%
  - China and Australia were key contributors

- Financial Services continues to expand
  - AUM reached S$19.1 billion, up S$1.4 billion from December 2007

- Proactive capital management
  - Successfully raised S$1.3 billion from 10-yr Convertible Bonds
  - Strong financial footing: Net D/E ratio 0.59; Average Maturity > 4 years

* Before 1H2007, includes HK, India, Vietnam, Malaysia, Thailand and Japan
From 1H2007, includes Vietnam, Thailand, Malaysia, GCC, Japan, The Philippines, and Indonesia (HK is part of China from 1H2007)
Why the need for Risk Management?

✓ Optimize capital and resource allocation
✓ Correct risk pricing
✓ Loss and cost reduction
✓ Opportunity enhancement
✓ Corporate governance improvement

Risk Management Enhances Shareholder’s Value
Enterprise Risk Management

*Risk strategy is built around and supports the business strategy.*
ERM within CapitaLand

Intensity of Risk Management Process

- General oversight
- Very detailed

Responsibility

- Council of CEO, Risk Committee & Audit Committee
- Internal Audit
- SBU Management & RAG

Strategic & System Risks

Corporate Governance & Compliance

Operational & Financial Risks
Functional Responsibilities of the Risk Committee

**Investment Committee**
- Review and approve individual projects as per Delegation of Authority.
- Evaluates risk-return relationship at individual project level.

**Risk Committee**
- Develop and recommend CL’s risk management processes.
- Review and approve broad risk guidelines and limits.
- Review CL’s risk portfolio level and mix.

**Audit Committee**
- Review adequacy of risk management, control & governance processes.
- Review adequacy of processes and procedures of operational risks.
RAG’s Risk Spectrum

1) Real Estate Risks
   i. Property price risk
   ii. Construction risk
   iii. Sales delay risk
   iv. Discount rate risk

2) Interest Rate & Refinancing Risks

3) Currency Risk

4) Counterparty / Credit Risk

5) Country Risk

6) Contingent Obligation Risk
RAG’s Methodologies

- Real Estate Value-at-Risk Model
- Risk Adjusted Target Returns for different countries
- Country Limits based on sovereign risk analysis
- Project Risk Evaluations
- Project reviews on regular basis
- Risk based Treasury Limits
- Option Pricing Models (Using Binomial / Trinomial Tree Model & Monte Carlo Simulation)
Method 1
Investment Proposal Risk Evaluation

SBUs

Investment Proposal

RAG

Risk Evaluation
Risk Quantification
Risk Mitigation
Target Return Adjustment

Approving Authority

Approval / Rejection

Project Reviews (for approved projects)
Method 1 (Cont’d)
Risk Evaluation Process

- Evaluation of individual investment proposals based on RAROC approach

Project > Risk-Adjusted Target Return

Key to our fund strategy as third party investors require stringent & objective investment analysis.
Risks included in Weighted Average Cost of Capital (WACC)

Liquidity Risk
Physical Real Estate Risk
Operational Risk
Legal & Regulatory Risk
Other Project Specific Risks

Target Return = WACC + Risk Premiums

CL has a matrix of close to 70 target returns across all property sectors and countries
Method 2
Portfolio Risk Management

- Measure & report the Group’s portfolio risks of property market, interest rate, refinancing, currency and contingency liabilities quarterly to the Risk Committee based on VAR/Expected Loss methodologies.

- Assist top management in capital allocation, proposal of risk limits and target returns.

- Ensure the Group’s capital is adequate for the level and mix of risks above.
VaR Methodology

Portfolio Input
- SBUs Assets & Loans
- Cash Flows & Portfolio Positions
- Exposures & Sensitivities

Market Volatilities
- Historical Data for Risk Factors (Q1/89 – Q1/08)
- Price Volatility Calculations

Historical Simulation
- 99% Confidence Level
- 1-Year Holding Period

VAR (Economic Capital)
- Group & SBU
- Project Level
- Risk Types
- Countries
- Product Types
Risk Management Process

- Policies Limits
- Un-bundling of Risk Exposures
- Risk Measurement (VAR)
- Economic Capital Adequacy
- Capital Allocation

Stress Testing/Scenarios

Tactical Resource Allocation
Residential - Singapore
Residential Singapore

● 2007 was an exceptional year
  — Sold over 1,430 homes valued in excess of S$3 billion

● Healthy Pipeline
  — Pipeline of development sites for luxury, high-end as well as the high-mid segments of the market
  — Well positioned for the next 2-3 years

● Positive long-term outlook
  — Market experienced sharp growth in the past 24 months
  — Current market uncertainty is primarily sentiment-driven due to the global financial turmoil. This is a respite for the market to stabilise
  — Government’s initiatives to transform Singapore into a global city will build a sustainable long-term growth path
Residential - Singapore

FY07: Sold 1,430 units: sales value of ~S$3b

Pipeline of ~5.5m sq ft GFA

Development at Farrer Court site

The Seafront on Meyer

The Orchard Residences

CapitaLand Presentation *April 2008*
Residential - China
Residential - China

- China has grown at a steady pace and is currently a key contributor to the Group’s EBIT

- Market fundamentals remain strong:
  - Real demand driven by urbanisation, demographics, strong economic growth & rising income

- Healthy operating environment despite government measures
  - Stable markets in Shanghai and Beijing
  - Healthy demand in inner cities such as Chengdu and Henan

- To develop over 35,000 homes with our partners to 2010
  - Attributable pipeline in excess of 6 million sqm
  - 2/3 are located in growing inner cities
Residential - China

FY07: Sold 1,944 units: sales value of ~RMB5b (S$1b)

CapitaLand Presentation *April 2008*
Commercial

- **Office sector remains core to CapitaLand**
  - Selective divestment for capital gain
  - Retain a core portfolio for recurring income by divesting to our sponsored REIT, CapitaCommercial Trust (CCT)

- **Upbeat Outlook**
  - Remaking of Singapore, a key impetus to office demand

- **Expansion in Asia**
  - Exploring new opportunities in high growth markets
    eg China, Vietnam & India
Healthy Office Absorption Expected

Singapore private office space (Central Area) – demand and supply

Ave annual supply = 2.4 mil sq ft
Ave annual demand during previous growth phase (’93 - ’97) = 2.1 mil sq ft

Post-Asian financial crisis and SARs - weak demand & undersupply

Remaking of Singapore as global city
Ave annual supply = 1.7 mil sq ft
Projected annual demand = 1.6 mil sq ft

Supply forecast & projected take-up

Ave annual supply = 1.8 mil sq ft
Ave annual demand = 1.6 mil sq ft

Source: URA, CBRE & CapitaLand Research (Jan 2008)

Note: Central Area comprises ‘The Downtown Core’, ‘Orchard’ and ‘Rest of Central Area’

1. Includes 18 malls under Memorandum of Understandings signed with a few Chinese parties in various provinces/cities in China (CapitaLand Press Release dated 15 January 2007)
Retail Rents Have Not Gone Beyond Pre-Crisis Level

Retail Rents have not increased to pre-crisis levels in comparison to Residential and Office Rentals.

1. Source: DTZ Research, April 2007
2. Includes office rental in prime areas.
3. Includes prime 1st storey rental rates per sq ft per month.
4. Includes residential rental in prime areas.

Forecast

Office rent goes beyond its historical peak
Retail Rent is still below its historical peak
Residential rent grows steadily

Source: DTZ Research, JLL Research, April 2007
Singapore remains “under-shopped” compared to regional (e.g. Hong Kong, Japan, and Australia) and major western markets

- Given this structural shortage, retail sector is expected to outperform other property sectors over the long-term
China Malls

Leading retail player with 73 malls worth S$8.0 billion, measuring 3.5 million sq m in Gross Rentable Area in 44 cities across China

Financial Services

- **AUM grew to S$19b in 1Q 2008 from about S$18b in FY2007**
  - 5 REITs and 14 private funds
  - Assets located in 11 countries

- **Target AUM of S$25b in 3-5 years time**
  - Key differentiator is our complete real estate value chain from development to fund management, and our pan-Asian presence
  - To grow AUM through accretive acquisitions and origination of new property funds/real estate products with assets in Asia

$28 billion @ 29 April’08
Outlook & Strategy

● Pro-active in strengthening financial position
  − Able to weather the current uncertainties
  − Capitalise on opportunities that arise

● Extend our position as:
  − Pan-Asia’s leading real estate developer
  − Asia’s largest retail mall owner/manager
  − Largest international serviced residence owner-operator
  − Leading Asia-based real estate fund and REIT manager

● Maintain disciplined investment approach
  − Stringent focus on capital management
  − Focus on optimal risk-reward

● Continue building up talent pool
  − Further strengthening of management bench
  − Building up real estate “intellectual property” capabilities
Industrial & Logistics

JV Partnership: CapitaLand 51% & Australand 49%

- Create an immediate development platform for expansion in Asia
- Targeting high growth markets: China, India, Vietnam, Thailand and Malaysia
Asia-Pacific is world's largest logistics market
- World’s manufacturing hub
- Growing consumer markets
- Will account for 38% of global market revenues in 2010

State of logistics market in Asia
- Fragmented with no clear market leader
- Relative shortage of good quality facilities

Strategic Corporate Development ("SCD")

**Objective:**
To increase long-term shareholder value and enhance corporate competitiveness through strategic M&As and strategic divestments.
Corporate Competitiveness could be enhanced through…

✓ Saving cost  
(through gaining scale, capturing market share)

✓ Access to new markets and new businesses  
(acquire systems and processes, save time)

✓ Access to new technologies  
(products)

✓ Access to talent
Functions of the SCD Team

To establish a systematic process for M&A and divestments:

1. Identify strategic intent behind M&A and divestment (i.e. the gap between corporate strategies and SBUs’ strategies)
2. Identify M&A and divestment targets
3. Research on targets
4. Build database on consultants
5. Manage M&A and divestment process
6. Co-ordinate formulation and execution of integration plans pre and post M&A
7. Document and institutionalize lessons learnt from M&A and divestment deals
More Than 110 Cities in Over 20 Countries
