Disclaimer

This presentation may contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, availability of real estate properties, competition from other companies and venues for the sale/distribution of goods and services, shifts in customer demands, customers and partners, changes in operating expenses, including employee wages, benefits and training, governmental and public policy changes and the continued availability of financing in the amounts and the terms necessary to support future business. You are cautioned not to place undue reliance on these forward looking statements, which are based on current view of management on future events.

### New Trends In The RE Funds Management

#### Rise Of Large-Scale, Long-term Institutional Investors – SWFs, Pension Funds

| Investors are more demanding and sophisticated | • New pools of capital  
|                                               | • Reducing the number of fund managers/partners they work with, sticking to better performers  
|                                               | • Large investors, with in-house capabilities, increasingly prefer to go “direct”  
|                                               | • Important to invest alongside like-minded investors and partners |
| Investors increasing core real estate exposure in Asia | • Shift in Asia strategy, going for portfolio diversification  
|                                               | • Build-for-core strategies |
| Shifting geographic focus | • Singapore continues to be attractive, with variety of core and opportunistic commercial real estate opportunities  
|                                               | • China remains important for investors who want a diversified global portfolio. Fund managers with established local network, execution capabilities, and track records, can differentiate themselves  
|                                               | • Investors starting to explore opportunities in other parts of Asia e.g. Indonesia, Korea, Japan |
CapitaLand’s Value Proposition as Fund Manager

How Does CapitaLand Differentiate Itself From Other Peers?

- Significant sponsor stake and strong alignment of interest with investors
- One-stop real estate solution for investors
  - Large and deep real estate footprint across Asia
  - Intimate market insights & deal flow access
  - Multi-sector focus
  - Developer-operator capabilities
- Demonstrated ability to create liquidity options e.g. REITs
- Strong balance sheet
- Desire to maintain high governance standards and minimise conflicts of interests
- Sustainability focus
Going Forward

- **Continued importance of fund management to CapitaLand**
  - ROE-enhancing “leverage”
  - Central to the active capital management strategy of CL
  - Strategic contributions – AUM growth, Capital Recycling, ROE enhancement

- **Focus for next two years**
  - Deepen existing relationships; cultivate more relationships
  - More Funds/Partnerships/JVs with existing and new partners
  - Capital partnership for both CL and REITs
  - 3-4 new vehicles with AUM of approximately S$4-6 billion
