CB Transactions Extended Debt Maturities At Lower Interest Cost

Effects of CB transactions:

- **Extension of average debt maturity** – Buyback of CBs with shorter tenor largely funded by new longer-dated CB

- **Future interest savings** – New CB issued has lower effective interest rate than all 3 CBs which were repurchased; Estimated interest savings of ~S$15 million in 2015

- **Recognition of one-time gain** – ~S$23 million for financial year ending 31 December 2015

Note:
1) Principal amount of CBs.
2) The aggregate outstanding principal amount of the 2.95% CB due 2022 is S$686,250,000, following the completion of the above CB transactions.

Multiple Platforms To Grow AUM And Recycle Assets
Strategic Contributions To CL’s Businesses

• **AUM Growth**
  - CapitaLand believes in achieving scale in the business, and fund management provides the financial backing to build up scale
  - E.g. The private funds business helps build up the Raffles City and retail mall portfolio in China

• **Capital Recycling**
  - REITs and fund management allow capital recycling and the matching of right type of capital to risk-return trade off
  - CapitaLand’s established platform enables seeding of private funds with assets
  - Keeps CapitaLand’s balance sheet “liquid” and efficient

• **ROE Enhancement**
  - Fee income from REITs and fund management will extract further value out of CapitaLand’s real estate platform
## Rise Of Large-Scale, Long-term Institutional Investors – SWFs, Pension Funds

### Investors are more demanding and sophisticated
- New pools of capital
- Reducing the number of fund managers/partners they work with, sticking to better performers
- Large investors, with in-house capabilities, increasingly prefer to go “direct”
- Important to invest alongside like-minded investors and partners

### Investors increasing core real estate exposure in Asia
- Shift in Asia strategy, going for portfolio diversification
- Build-for-core strategies

### Shifting geographic focus
- Singapore continues to be attractive, with variety of core and opportunistic commercial real estate opportunities
- China remains important to investors who want a diversified global portfolio. Fund managers with established local network, execution capabilities and track records, can differentiate themselves
- Investors starting to explore opportunities in other parts of Asia e.g. Indonesia, Korea, Japan
CapitaLand’s Value Proposition As Fund Manager

How Does CapitaLand Differentiate Itself From Other Peers?

- **Significant sponsor stake and strong alignment of interest with investors**
- **One-stop real estate solution for investors**
  - Large and deep real estate footprint across Asia
  - Intimate market insights and deal flow access
  - Multi-sector focus
  - Developer-operator capabilities
- **Demonstrated ability to create liquidity options e.g. REITs**
- **Strong balance sheet**
- **Desire to maintain high governance standards and minimise conflicts of interests**
- **Sustainability focus**
Going Forward

- Deepen existing relationships; cultivate more relationships
- More Funds/Partnerships/JVs with existing and new partners
- Capital partnership for both CL and REITs
- To work on 6 new vehicles with AUM of up to S$10 billion by 2020
Conclusion
Conclusion

• Well-balanced portfolio enables the Group to maintain a consistent operating track record

• Prudent capital management ensures sustainable future growth

• Ability to tap on diversified sources for funds helps to preserve financial flexibility

• Able to access multiple platforms to grow AUM and recycle assets
