Conclusion

• The threat of COVID-19 remains prevalent and the economic outlook remains uncertain. Despite our expectations of continued pressure on our business for the remaining of the year, we are cautiously optimistic that the worst is over.

• We have been diligently adapting our business to the evolving needs of our stakeholders to ensure CapitaLand will pass the test and continue to build on our position as a leading diversified real estate group.

• Our long-term strategy remains intact and we will continue to build on our strengths to create a diversified and well-balanced portfolio for sustainable returns.

• Asset recycling is a key component that makes up CapitaLand’s return on equity. We will look to opportunistically divest non-core assets and businesses to achieve our S$3 billion annual target.

• Our strong balance sheet will allow us the agility to navigate through formidable current challenges. We will actively look for opportunities to reposition the Group within our three strategic growth businesses: Development, Lodging and Fund Management.

• Our digital capabilities, human capital and commitment to ESG excellence will continue to be the bedrock to our on-going success.
